

## In the storm - 1/2

**Interprété par Geneviève Charest.**

Graciously,  
Limbs bend skimming the stream  
Hurts, you show no sign  
Proudly you stand, willow of mine

Always to be found  
In your shade I've been safe and sound  
Comforting me,  
Cocooning willow tree

At times your soil grew dry  
Your sorrow is greater  
You don't cry

You shouldn't be ashamed  
To scream out your pain  
All the raindrops and dew  
If I have to...

In the storm  
I will tame for you the weather  
In the storm  
Will protect you from harm

In the storm  
I will silence the thunder  
In the storm  
I will bear your pain,  
I'll weep for you

I know it's hurting you  
To dust all your hollow roots  
A furrow deeply scarred  
In you dear willow

You opened your heart  
Someone tore it apart  
Hurts but no sign  
Fading willow of mine

You suffer alone  
You say that you're fine  
You show you're strong

## In the storm - 2/2

Your lips shake stories  
That your tongue denies  
Telling no weakness,  
Hushing a lie

In the storm  
I will tame for you the weather  
In the storm  
Will protect you from harm

In the storm  
I will silence the thunder  
In the storm  
Oh, let me be...

Be your strength, be your shade  
Let me water you  
I will weep, I'll weep for you

In the storm  
I will silence the thunder  
In the storm  
Drying weeping willow  
I'll cry for you
