

# I know a place - 1/1

**Interprété par Bob Marley.**

[Bridge]

When the whole world let you down  
And there's nowhere for you to turn  
Cause all of your best friends let you down  
And you tried to accumulate  
But the world is full of hate  
So all of your best hopes just a dream throught space

[Chorus]

I know a place where we can carry on  
I know a place where we can carry on  
We can carry on, we can carry on  
We can carry on, we can carry on

And this people like you, ooh people like me  
People need to be free yere  
This a place in the sun where there is love for everyone  
Where we can be yere

[Chorus]
