

# Watergate - 1/1

**Interprété par Ohgr.**

watergate

scenery twisted

as i slip off the back of the rock

that's so hard to hold on to

and what a day you left me

you went through the back door

you knew there was no hope

and i wish you were back there

to see what's going on

and i wish you could be here

to see what's going on

watergate

serious twist it

as i stab at the back weave of thread

form fabric of existence

and what a way

you let be

you went through the black door

and i wish you were back there

to see what's going on

and i wish you could be here

to see what's going on

and i wish you could be here
