

## A single second - 1/1

**Interprété par Afi.**

Oh my God! My God this can't be happening!  
God tell me, tell me this isn't real!  
I can't believe all that I have  
foreseen is finally happening.  
I cannot for a single second stand the way I feel.  
I always knew. I always saw it coming.  
Enveloped now, encased by my worst fear.  
I've never felt the nausea of longing to feel nothing,  
I never wanted to cease to  
exist, just disappear. Fear memories are all that lie ahead.  
Never have I felt so lost. Memories dull my senses.  
Fear tragedy is all that lies ahead.  
Never have I felt so dead.  
Once felt so warm, now I'm fucking freezing.  
I am the once embraced abandoned one.  
I raised my eyes up to the light in hopes of finding healing;  
no relief was mine, I was burnt, by the sun.
