

Af607105 - 1/2

Interprété par Charlotte Gainsbourg.

Melancholy

aviation

chocolate

perfume

cigarettes

frequent flyer

stow away

dislocation

sleeping

jets

wave goodbye

feel homesick

tranquilizers

bill of fare

cry easy

dvt

disappear into thin air

chorus

we wish you all a very happy pleasant flight

this is a journey to the center of the night

and the inflight entertainment's out of sight

here on af 607105

time difference

you're waking

chase the sun into your eyes

sleeping cities

dust hotel rooms

passengers look to the skies

fly over

your lifetime

and never touching down

my heart

is breaking

somewhere over saskatchewan

chorus

we wish you all a very happy pleasant flight

this is a journey to the center of the night

and the inflight entertainment's out of sight

here on af 607105

your life in

the wrong hands

Af607105 - 2/2

savannah and frozen wastes

the flight path
the wingspan
below the earth rotates

i love you
i miss you
i cannot see your face

invent a
new persona
drunk here on the edge of space

all the things i carry with me
and all the things i left behind
and all the things that wait to meet me
hover in the air tonight

if i can only keep on moving
and never stop and think of me
and freefall through the years and decades
terminal velocity
chorus
we hope you had a very happy pleasant flight
this is our final destination so goodnight
like a stone we are now falling from the sky
farewell from af 607105

the cabin
is burning
i smile and feel complete

here amongst
total strangers
27 000 feet

suspended
isolation
kids throw toy planes in the street

one final
blaze of glory
viewed from a window seat
