

## Love cheat - 1/1

**Interprété par Robbie Williams.**

It's the end of the night,  
I want to know ya  
Get the phone, call a cab, and take you home yeah  
I think there's something, you should know  
I'll send my boys an order through InterFlora  
Tell you lies, like I love ya, and I adore ya  
I think there's something, you should know

I'm a love cheat, and you look so sweet  
Can't take you home, where I live, lay you by the fire  
Love me, lady, I'm a liar

The curtains closed, and the night is fun  
And I think it's time for me, to not be, home alone  
I think I'll put the cat out and give the dog a bone  
I hardly know ya, but I like your figure  
Suppose I read about you in the Mirror  
They think there's something, everybody should know ...
