

Your gay friend - 1/2

Interprété par Robbie Williams.

A woo hoo
Hey hey here comes no one
Another friend to have a go on
And she asks me do I miss her when she's gone ?
And I reply "As much as I miss anyone"

Oh
A Woo hoo
And I'll be your gay friend
'Cus your marriage never ends
Till we fuck and fight again
There's a space between us

So jump into my bed
We'll pretend the world is dead
But always in my head
Is a face between us

Hey Lord forgive us if we're wrong
And I make sure that he never hears this song
And she says that I'm the opposite
of a Hallmark card
She asks me how I'm feeling well
I don't want to think that hard

Oh
A Woo hoo
And I'll be your gay friend
'Cus your marriage never ends
Till we fuck and fight again
There's a space between us

Jump into my bed
We'll pretend the world is dead
But always in my head
Is a face between us

It's the late show now
How does the late show end ?
Well if God is in the details thank God that
you're my friend
I have a friend again
You are my friend again
My gay friend

Jump into my bed
And I pretend the world is dead

Your gay friend - 2/2

And always in my head
There's a space between us

And I'll be your gay friend
'Cus your marriage never ends
Till we fuck and fight again
There's a space between us
A woo hoo
