

We'll be together - 1/2

Interprété par Ashley Tisdale.

Im not alone
Even when we're apart I feel you
In the air
Yeah
Im not afraid
I know what you're thinking
I can hear you everywhere

Some people say it'll never happen
And we're just wasting time
But good things come when you least expect it
So I don't really mind

Well be together, come whatever
Not just staring at the stars
Just remember that no one else can tell us who we are
Well be together, so don't ever stop listening to your heart
Cuz I cant turn mine up
Oooh oooh
Oooh

I can't pretend that this is a rehearsal
For the real thing, cuz its not
And I know we're young
But I can't help feelin' what I'm feeling
And I won't stop

Some things are meant to be and will be there
And when the time is right
Even though I know that
I swear I wish you were tonight
(Wish you were tonight)

Well be together, come whatever
Not just staring at the stars
Just remember that no one else can tell us who we are
Well be together, so don't ever stop listening to your heart
Cuz I can't turn mine up

Ooohh yeah
I like what's happening to me
Ooohh yeah
Nothing else to say oh
Ooohh yeah
Something finally got to me
Carry me away (carry me away)

We'll be together - 2/2

Well be together, come whatever
Not just staring at the stars
Just remember that no one else can tell us who we are
Well be together, so don't ever stop listening to your heart
Cuz I can't turn mine up
Ohhhh ohhhh yeah

Well be together, come whatever
(come whatever, come whatever, come whatever)
Ohhhh

I'm not alone
Even when were apart
I feel you
