

Cliffdiving - 1/2

Interprété par Plus 44.

Silly girl, I think i've got a thing for you
From late nights, when driving in that stolen car
The used and wasted, living in this desert town
Haven't broken us so far

Hot afternoons, we climb on-to the neighbours house
Breathed deap and jumped into a waiting sky
Our bare feet were framed on the horizon
I felt the future in your eyes

It was the promise of summer
We'll seal it with a kiss
This time i'll do things proper
How did it get to this?

Dear you, tonight let's get ahead of ourselves
'Cos now i barely can remember
Yesterday, stretched on for so long
Tomorrow feels life forever

My god, you know how much i needed this
These days are filled with such disaster
Sometimes i think that life will never be the same
Sometimes i think that's the answer

And she said

Here comes the promise of summer
Let's seal it with a kiss
This time i'll do things proper
How did we get to this?

Here comes the promise of summer
Let's seal it with a kiss
This time i'll do things proper
How did we get to this?

Here comes the promise of summer
Let's seal it with a kiss
This time i'll do things proper
How did we get to this?

Here comes the promise of summer
Let's seal it with a kiss
This time i'll do things proper
How did we get to this?

Cliffdiving - 2/2

Here comes the promise of summer

Let's seal it with a kiss

(Let's seal it with a kiss)

(Let's seal it with a kiss)

Here comes the promise of summer

(How did it get to this?)
