

## A silent ending - 1/1

**Interprété par Inept.**

Then you were gone  
i never had the chance to tell you how i felt inside this feeling incomplete  
like the time i fell so madly in love kept these 3 words from coming out and revealing me oh well..

Ive had the time of my life until you cut me like a knife this wound was deep and so i bled. with the joy of  
holding back i save myself from heart attack close to the end  
thanks to you

I felt a warm heart coming from you before hatred had its turn to hold me killing my insides.

and whats come over you and whats come over me?

I've seen the weight on your back I should have known you'd fold your hands with the first chance. Then you  
were gone with a silencer in hand its up to you to write the end

I felt a warm heart coming from you before hatred had  
its turn to hold me killing my insides

I'm happy ot admit that hiding deep within a mistake that has saved me from the end  
and thanks to you

i felt a warm heart coming from you before hatred had its turn to hold me killing my insides
