

Infinity - 1/1

Interprété par Tokio Hotel.

Infinity

The warmth carries us into infinity
Everything drifts along us
In the moonlight there are just the two of us

Infinity is not far away
Infinity is not far away now

The next eternity has to begin now
Forever is everything we have left
Through the horizon next to the sky

Infinity is not far away
Infinity is not far away now

Infinity is not far away
Infinity is not far away now
