Somebody gotta tell me what tomorrow brings
And now I feel my life is just another dream
Even if i'm lost im gonna find a way
And even if i'll never see another day
Just tell me what tomorrow brings ...

My life's been all the same
I'm thinkin that it'll start to change
I'm thinkin that it's startin to let go
I've gotta let go of all them things
All the hard times I know they've been
Slowly startin to float away
I'm thinkin that i've gotta let go
If you could show me what tomorrow brings

Oh no
Who knows
What's going on
When your living the life that gets harder
When your liking the change you get caught up
Oh no
Who knows
What's going on
When your feelin alone and go crazy
And your screamin my Lord wont you save me

Somebody gotta tell me what tomorrow brings
And now I feel my life is just another dream
Even if i'm lost im gonna find a way
And even if i'll never see another day
Just tell me what tomorrow brings..

I was strugglin days and nights
But now everything's goin alright
I'm thinkin that i'm startin to move on
I've gotta move on and live my life
I've gotta think out everything
Coz there is no one to show me the way
I'm thinkin that i'm startin to move on
Coz ?? show me what tomorrow brings

Oh no
Who knows
What's going on
When your living the life that gets harder
When your liking the change you get caught up
Oh no
