

Heal me - 1/1

Interprété par Sunrise Avenue.

This is something I cant hide
Cant throw it away
This is something I cant fake
They know youre away
They know how to break me
They know youre far away

If this sadness takes its place
Ill free the space it needs
Im hiding in the place
Where we share the days
Where we share the nights
Go through dark and light

Could you believe Im waiting for someone
Could you believe Im holding the night with my hands
Alone in the night on my own
I feel the pain inside me
Only you can heal me

This is something I cant take
I feel so lame
There is nothing in my mind
But you all the way
You rule every moment
Youre the air around me

Loves a lonely road sometimes
I keep moving on
Towards the moment youll be mine
A long way to go
To where we belong
Well be there before long

Could you believe Im waiting for someone
Could you believe Im holding the night with my hands
Alone in the night on my own
I feel the pain inside me
Only you can heal me

By sharing this moonlight
And the tears in my midnight cry
I need to hear you breathe by
Me in the night, deep in the night
