

From the start - 1/1

Interprété par Ryan Cabrera.

Tell me what you need
You know what's on your mind
You say he's usually
Screwin up your life
He's always gone
When you need to talk
It's just wrong

I wish you wanna love
Is it enough?
I'll be your shelter when the weather is rough

And now you should let go
I'd let you love me like I was in your heart
Just trust like I was there from the start

I'll tell you what you need
A man more like me
It's not a fantasy
You can have everything
You can be loved
And its time you know girl
You've had enough

I wish you wanna love
Is it enough?
I'll be your shelter when the weather is rough

And now you should let go
I'd let you love me like I was in your heart
Just trust like I was there from the start

So much left just look
It's time you leave
Oh is it enough I'll be your shelter when the weather is rough
Is it enough?
I'll be your shelter when the weather is rough

And now you should let go
I'd let you love me like I was in your heart
Just trust like I was there from the start
