

Kiss me - 1/1

Interprété par Robbie Williams.

In my young life I have received
Callers as though they were
Christmas Eve
I'm disappointed and I don't know why
She gave me laughter and hope
And a sock in the eye
In my young life I know
Something now
I've never tried to create a wow
Wows are few frustration
More common
Now I can feel it in my soul
That's why I gave the come on

Kiss me with your mouth
Your love is better than wine
Kiss me with your mouth
Your love is better than wine
But wine is all I have
Will your love ever be mine

Faces fall before my feet
Like blood onto a clean white sheet
When I grow old I won't forget
To innocence my only debt

'Wow I feel so fresh today
Barefoot in the snow
To make love in the hay
The stars are bright in the abyss
Now I can feel you in my arms
I explode inside your kiss

Kiss me with your mouth
Your love is better than wine
But wine is all I have
Will your love ever be mine

Kiss me with your mouth
Your love is better than wine
But wine is all I have
Will your love ever be mine
