

## See who i am - 1/2

**Interprété par Within Temptation.**

Is it true what they say  
Are we too blind to find a way ?  
Fear of the unknown  
Clouds our hearts today

Come into my world  
See through my eyes  
Try to understand  
Don't want to lose what we have

We've been dreaming  
But who can deny  
It's the best way of living  
Between the truth and the lies

See who I am  
Break through the surface  
Reach for my hand  
Let's show them that we can  
Free our minds and find a way  
The world is in our hands  
This is not the end

Fear is withering the soul  
At the point of no return  
We must be the change we wish to see

I'll come into your world  
See through your eyes  
I'll try to understand  
Before we lose what we have

We just can't stop believing  
Because we have to try  
We can rise above their truth and their lies

See who I am  
Break through the surface  
Reach for my hand  
Let's show them that we can  
Free our minds and find a way  
The world is in our hands  
This is not the end

See who I am  
Break through the surface  
Reach for my hand

## See who i am - 2/2

Let's show them that we can  
Free our minds and find a way  
The world is in our hands  
This is not the end

This is not the end

I hear their silence  
Preaching my blame.  
Will our strength remain  
If their power reigns ?

See who I am  
Break through the surface  
Reach for my hand  
Let's show them that we can  
Free our minds and find a way  
The world is in our hands  
This is not the end

See who I am  
Break through the surface  
Reach for my hand  
Let's show them that we can  
Free our minds and find a way  
The world is in our hands  
This is not the end

This is not the end
