

Gatekeeper - 1/1

Interprété par Within Temptation.

The shadows of the night are unleashed ageinn
Where their greed begins the end is near
A morbid hunger for blood lies in their cold black eyes
They've come to take ouur lifes away

One by one they died A massacre that took all night They had no chance, it was no fight You can't kil what has been killed before They died ...

With shadows on its tale
He steppedThrough the portal
locked the door and ate the key
With his life they took their way to freedom
and be became the final keeper of the key
