

No school today - 1/1

Interprété par Superbus.

You're sixteen, you're late at school
You don't like working, I understand, it's cool
You have a band but you haven't found a name
You're not the same that's what your parents say

What about your life, before to be a rockstar
What about your life, before to be a rockstar
You say : no way I won't go to school
Today what about the rules
No more teachers, no more work
I'm leaving with my band around the world
No way I won't go to school
Today what about the rules

You told your friends you wanted to leave
They said "it's crazy", what are you doing ?
But they don't know, they really don't know
What's happening on stage when your doing the show

What about your life, before to be a rockstar
What about your life, before to be a rockstar
You say : no way I won't go to school
Today what about the rules
No more teachers, no more work
I'm leaving with my band around the world
No way I won't go to school
Today what about the rules
No more teachers, no more work
I'm leaving with my band around the world

No way I won't go to school
Today what about the rules
No more teachers, no more work
I'm leaving with my band around the world

No way I won't go to school
Today what about the rules
No more teachers, no more work
I'm leaving with my band around the world
