

## The last time - 1/2

**Interprété par Rihanna.**

Once was a time you and I  
Made a promise till the day we die  
I trusted each and every word  
Never thinkin that I'd get burned  
Silly me I believed in your fairy tales  
Boy I thought that I knew you so very well  
But you walked on my pride all the tears that I cried  
And it cuts like a knife

Its the last time your ever gunna kiss these lips  
Or ever will decieve these eyes  
Believe me when I tell you this  
Baby boy its the last time  
I'm ever gunna cry these tears  
I'm never gunna hear your lies  
So listen while I make it clear  
In case you didnt hear  
This times the last time  
Theres no time  
To give it one more try  
Theres only time to say goodbye

Fooled me once shame on you  
Fooled me twice now this song is through  
The things you said I can never forget  
The things you did fill my heart with regret  
But I'm still standin tall as I walk away  
And you know that its true when you hear me say  
Its over, its through  
And nothin you can do boy its sad but its true

Its the last time your ever gunna kiss these lips  
Or ever will decieve these eyes  
Believe me when I tell you this  
Baby boy its the last time  
I'm ever gunna cry these tears  
I'm never gunna hear your lies  
So listen while I make it clear  
In case you didnt hear  
This times the last time  
Theres no time  
To give it one more try  
Theres only time to say goodbye

Good Byeee No Baby  
Silly me I believed in your fairy tales  
Boy I thought that I knew you so very well

## The last time - 2/2

But you walked on my pride all the tears that I cried  
And it cuts..like a knife

Its the last time your ever gunna kiss these lips (ever gonna kiss these lips)  
Or ever will decieve these eyes  
Believe me when I tell you this  
Baby boy its the last time  
I'm ever gunna cry these tears  
I'm never gunna hear your lies (never gonna hear your lies)  
So listen while I make it clear  
In case you didnt hear  
This times the last time  
Theres no time  
To give it one more try  
Its over its through nothin you can do and wonder why  
Theres only time to say goodbye

Baby goodbye  
Never gunna never gunna cry no more  
Goodbye goodbye
