

White lies - 1/1

Interprété par Paolo Nutini.

There's a heart on the line
And it rests with your eyes
Please don't fade and please don't cry
Cause it's all white lies
Take a chance watch it fall
Grab too much and lose it all
Now I've lost my disguise
It was all white lies

Stay here
Lie here with me
Oh lo-fi
Lonley sighs
I will roam lost but never alone
Hide with me
Hide

Would it help if I tried
Or has it sailed and passed me by
First love grows then it does
And its all white lies

Stay here
Lie here with me
Oh lo-fi
Lonley sighs
I will roam lost but never alone
Hide with me
Hide with me

Now you move with the tide
And Ive heard you've found peace of mind
And I know that life's design moves around white lies
White lies
White lies
White lies
