## Ready to fly - 1/2

## Interprété par Richard Marx.

I've been trying to open the door To the secret of my destiny And every new road I think is the one Seems to lead right back to me

I've looked for a way to be wiser A way to be strong Now I see the answer was hiding In me all along

And I'm ready to fly Over the sun Like a rocket to heaven And I'm ready to soar Right through the sky Never dreamed I'd find something to lift me so high I've always had wings But I wasn't ready to fly

Restless, hopeless, and misunderstood Like so many others I know So busy tryin' to keep holdin' on When I should've been letting go

I was given the gift to find it The spirit inside me But I never really imagined All I could be

And I'm ready to fly Over the sun Like a rocket to heaven And I'm ready to soar Right through the sky Never dreamed I'd find something to lift me so high I've always had wings But I wasn't ready to fly

The answer to all of my wonder Was right in my hands Now it's time for me to discover All that I am

And I'm ready to fly Over the sun Like a rocket to heaven And I'm ready to soar

## Ready to fly - 2/2

Right through the sky Never dreamed I'd find something to lift me so high I've always had wings But I wasn't ready to fly

I've always had wings Now I'm finally ready to fly
