

Everything good - 1/1

Interprété par Richard Marx.

Onward I always say
These things happen everyday
I should be able to smile by now
But I don't remember how

With you went warmth in summer
All of the stars in the sky
With you went perfect sunsets
Sleeping my way through the night
Yeah with you went
Everything good in this world

Desperate for your touch
I haven't been needing much
Why let the music play?
I can't hear it anyway

'Cause with you went
The scent of flowers
Don't they just die anyway ?
And with you went
All the rainbows
Now when it rains it's just gray
Yeah, with you went
Everything good in this world

And I thought of doing something rash
In the hopes of making you feel bad
But it seems that it's always me that ends up cryin'

With you went
All the rainbows
Now when it rains it's just gray
Ah, with you went
Everything good

Everything good
In my world
