Give the drummer some
I already gave the summer some
It's the winter's turn
Hovie Hov is the coldest
I'm just getting better with time
I'm like Opus One
Young, no two alike like a snowflake
OK ! Show me what you got baby
Words is slurring engine purring
Mami fronting but I'm so determined
Shots of Patron, now she's in the zone
I ain't talking about the two-three
Mami in the zone like the homie 2-3
Jordan or James
Makes no difference
Boo I'm balling the same
I am the Mike Jordan of recording
You might want to fallback from recording
But you right it's not important
So it forced him to go for the hype
For being brave and may applaud him
Well misery I will assure them
Oh baby just ignore them
Truth or dare mami listen and learn
I got a drop I just took off the top
It's your turn

Hey hey hey hey hey hey
Show me what you got, lil mama
Show me what you got, pretty lady

Show me what you got - 2/3

Show me what you got, shorty
Show me what you got, baby
Hands up and ...

H.O.V.A., gold bottles of that ace of spade
Why even fool with these other guys
They all stingy
All these dudes know how to say is gimme
Gimme some head
Gimme some brain
Gimme your number
Gimme your name
But if I get one night baby girl I swear
I'll make you tell these other dudes
Gimme got you here
I'll take you shopping
Take long trips
I'll take the cork off
You can take sips
I'll take you there, take my time
Take you clothes off, I'll take off mine
Ma, show me what you got
Hovie in the spot tried to told you I was hot
Tell these other dudes it's a wrap
Get the fuck out the throne you clone
The King's back !

Y'all got less than 2 months to get y'all thing together
Good luck !
