

I walk alone - 1/1

Interprété par Tarja Turunen.

Put all your angels on the edge
Keep all the roses, I'm not dead
I left a thorn under your bed
I'm never gone
Go tell the world, I'm still around
I didn't fly, I'm coming down
You are the wind, the only sound
Whisper to my heart
When to is torn apart
And no one can save you

I walk alone
Every step I take
I walk alone
My winter storm
Holding me awake
It's never gone
When I walk alone

Go back to sleep forever more
Far from your fools and lock the door
They're all around and they'll make sure
You don't have to see
what I turned out to be
No one can help you

I walk alone
Every step I take
I walk alone
My winter storm
Holding me awake
It's never gone
When I walk alone

Waiting up in heaven
I was never far from you
Spinning down I felt your evermore
I walk alone

I walk alone
Every step I take
I walk alone
My winter storm
Holding me awake
it's never gone
When I walk alone
