

## Let's burn again! - 1/1

**Interprété par Gush.**

It's good to see you again  
You're my lover, take my hand.  
It's so good to touch your skin  
To grab your jeans and bite your lips again.

We're gonna make it, 'til we get sick  
Stop talking about it. Let's burn again!

(Chorus:)

Now! Lay down on me.  
I'm sure we're gonna love it.  
It's all we desire, we're gonna catch on fire  
Just to feel again.  
The two of us (the two of us).

I like your morning face, your morning breath,  
Let's make love twice.  
It's been so long, since I've been here,  
and smelled your hair, and felt your breast

Peaceful and lazy, it's all I wanna be,  
There ain't no time to waste, Let's burn again!
