

Come together - 1/1

Interprété par Blur.

I don't understand
You're walking over me
All over me, to you
Well you must be mad
And you know you are
You should have known
I'd do anything for you

(chorus)
So why, why
Can't we come together? why

Inside my head
It's all been taken out
By you and do I care
Well you know I do
You should have known
I'd do anything for you

(repeat chorus)

Now it's all been said
And you know it all
Then you should have known
I'd do anything for you
For you

(repeat chorus)
