

## I can dream - 1/1

## Interprété par Skunk Anansie.

I'll be your sailor boy I'll tip my cap to your parade Life won't be dreary no I'll be the waves inside your bed Pain is your beauty It hurts the vision in your eyes Your eyes are smiling now They watch me cry, they watch me die Watch me die I can dream, i can dream I can dream that i'm someone else I can love, i can love I can love - whoa - love someone else My saviour, my darling Your eyes seep through me You think you hate the way i mince I'm screwing your dreams now So cynical at your expense Oh what a sacrifice All of my dreams will melt away So who's so special now No one's more special, more than me
