

## Me and my gun - 1/2

Interprété par Tori Amos.

5am  
Friday morning  
Thursday night  
Far from sleep  
I'm still up and driving  
Can't go home  
obviously  
So I'll just change direction  
Cause they'll soon know where I live  
And I wanna live  
Got a full tank and some chips  
It was me and a gun  
And a man on my back  
And I say "holy holy" as he buttoned down his pants

Me and a gun  
and a man  
On my back  
But I haven't seen Barbados  
So I must get out of this  
Yes I wore a slinky red thing  
Does that mean I should spread  
For you, your friends your father, Mr. Ed  
And I know what this means  
Me and Jesus a few years back  
Used to hand and he said  
"It's your choice babe just remember  
I don't think you'll be back in 3 days time  
So you choose well"  
Tell me what's right  
Is it my right to be on my stomach  
of Fred's Seville

Me and a gun  
and a man  
On my back  
But I haven't seen Barbados  
So I must get out of this

And do you know Carolina  
Where the biscuits are soft and sweet  
These things go through your head  
When there's a man on your back  
And you're pushed flat on your stomach  
It's not a classic Cadillac
