

Sleeping With The Light On - 1/1

Interprété par Busted.

Along she came with her picture
Put it in a frame so I won't miss her
Got on a plane from London Heathrow
It seems such a shame, yeah

I feel her slipping through my fingers
Now she's gone,
I'm sleeping with the light on
And sharks swim through my veins now
That she's gone,
I'm sleeping with the light on

Heard she's engaged but to her best friend
No one's to blame, here's where it all ends
And I feel the pain cause I'm without her
I feel the pain

I feel her slipping through my fingers
Now she's gone,
I'm sleeping with the light on
And sharks swim through my veins now
That she's gone,
I'm sleeping with the light on

Is she the sign with a different life?
Words cannot describe the way I'm feeling
Cause I've been searching in my head
For the words I thought she said
For too long

I feel her slipping through my fingers
Now she's gone,
I'm sleeping with the light on
And sharks swim through my veins now
That she's gone,
I'm sleeping with the light on
