

Bring It To Me - 1/1

Interprété par Samantha Cole.

Never even thought to cry
when I heard you say good-bye
never said where you were going
There's no laughter in the air
Only silence everywhere
And so much left unspoken

Since you've been gone
I haven't been the same
I wish that I could see
Who's to blame

Without you, where do I belong?
Without you, how can I go on?
No love but yours will ever do
Tell me how am I supposed to live my life
without you?

Was I lost in you and me
To the point I couldn't see
That what we had was dying
Now it's all that I can do
To see photographs of you
And stop myself from cryin'
I should learn to live without you love
Got so many memories but it's not enough

I feel helpless and oh so all alone
Like I've never felt before
You made me feel alive
But I don't remember what it's like anymore
