

I Just Wanna Be Loved - 1/1

Interprété par Culture Club.

Take a picture of tonight and keep it by your heart
Love has left us memories, there's no better way to part
I will find another love, someone who won't bring me down
How you tried to level me but you never stood your ground
Fortunately I got wise this time
Fortunately I got me on my mind

Chorus:

Oh I just wanna be loved
Don't wanna fight you baby
But I'm much too proud to say it loud
I just wanna be loved
Don't wanna beg you baby
But I'm much too proud to shout it out

Take a piece of dignity and use it in your life
Even though you hurt me I still want you to survive
Love was never special, we were never down
You will always have someone to bring you home the crown
Fortunately I got wise this time
Fortunately I got me on my mind

Chorus

(Oh) when you love someone
Don't you know, love is blind
(Oh) when you love someone
It'll be for all time, that's right

Fortunately I got wise this time
Fortunately I got me on my mind

Chorus

(Oh I) just wanna be loved
Oh I just wanna be loved
(Oh I) just wanna be loved
(I just wanna be loved) I need to be loved (love me, love me) yeah
(Oh I) just wanna be loved
