

# The Pathway To The Moon - 1/1

**Interprété par Justin Timberlake.**

You know  
Eternity is forever  
Time and space have no boundaries  
Forever awaits eternal  
You're so beautiful

An ocean wind blows soft tonight  
A lovers moon lays down its light  
Like a path upon a shiny sea  
An invitation for two souls  
To see where the horizon goes  
The future reaches out for you and me

Chronus  
So take my hand  
Take this heart  
Forever waiting just below the stars  
Heaven's light will be setting soon  
Tonight let's take the pathway to the moon

It seems like we could walk on water  
Never slip and never falter  
Maybe that is just the power of love  
The waves are singing out our song  
And before the break of dawn  
We will promise to the moon above

Repeat chronus to fade
