

## Bulldozer - 1/2

**Interprété par Machine Head.**

Into the battles, making cages rattle  
There's a pain that's inside us and we're letting it out  
Charge right in, we dare to fail  
No one is giving in, always we live to win  
A hunger turns and burns inside of all of us  
And it will not be denied

Walking a path untraveled to reach higher level  
Challenging always going against the grain  
Blood for blood - that is the rule  
And we will make the rules, never be fortune's fool  
There's right and wrong in almost everything we do  
For us we do what is right

Bulldozer feeds upon the weaker as they fall  
Bulldozer crushes all

Somebody told me I should do what they told me  
But there's a hole in that plan and I'm tearing it down  
Trust our guts, follow our hearts  
No one can break these nuts, these lips ain't kissing butts  
The path of most resistance tests all of our strength  
This strength will not be denied

Bulldozer feeds upon the weaker as they fall  
Bulldozer crushes all  
Bulldozer feeds upon the weaker as they fall  
Bulldozer crushes all

Walking on paths untraveled  
Challenging one and all  
Deeper into the battles  
Alone and standing tall  
The more evolving changes  
The more we stay the same  
Full steam against the odds  
Go headfirst against the grain

Full steam we go against the odds  
Headfirst we go against the grain

Bulldozer goes against the odds  
Bulldozer goes against the grain

Against the odds, against the grain  
We go against the odds, against the grain

## Bulldozer - 2/2

This is the bulldozer  
This is the bulldozer
