

## I know - 1/1

### Interprété par Placebo.

I know, you love the song but not the singer,  
I know, you've got me wrapped around your finger,  
I know, you want the sin without the sinner,  
I know, I know.

I know, the past will catch you up as you run faster,  
I know, the last in line is always called a bastard,  
I know, the past will catch you up as you run faster,  
I know, I know.

I know, you cut me loose from contradiction,  
I know, I'm all wrapped up in sweet attrition,  
I know, It's asking for your benediction,  
I know, I know.

I know, the past will catch you up as you run faster,  
I know, the last in line is always called a bastard,  
I know, the past will catch you up as you run faster,  
I know, I know.

I know, the past will catch you up as you run faster,  
I know, the last in line is always called a bastard,  
I know, the past will catch you up as you run faster,  
I know, I know.
