

Perfect Memory - 1/2

Interprété par Remy Zero.

Remember how they always seemed to know
We had the forest in our eyes but the earth was in our clothes
And they thought we'd fall
But not at all

So look back on your treasured days
When we were young in a world that was so tired
Though it's not what we wanted before
Even the saints had to crawl from the floor

And summer's when the money was gone
You'd sing
All your little songs that meant everything
To me

And I'll remember you
And the things that we used to do
And the things that we used to say
I'll remember you that way

Remember how they tried to hold you down
And we climbed those towers and looked out upon our town
And everything you hoped would last
It just always becomes your past
It hurts but

And summer's when the money was gone...

And I'll remember you
And the things that we used to do
And the things that we used to say
I'll remember you always

But then how this world slipped through my fingers
And even the sun seemed tired
I still cared
As they lowered you down my heart just jaded
In that moment the earth made no sound
But you were there
You helped me lift my pain into the air

I always thought you'd come home

And I'll remember you
And the things that we used to do
And the things that we used to say
If it don't hurt you it won't hurt me

Perfect Memory - 2/2

If it don't hurt me it won't hurt you

If it don't hurt you it won't hurt me I know
