

## War Song - 1/1

**Interprété par Cunnie Williams.**

please won't someone hear my cry  
wipe these tear drops from my eyes  
tell me if life worth a prayer  
will I knee, will you be there

don't wanna another war song (\*4)

Mother's are tears of pain  
broken future and the blood stains  
material gain can destroy your mind  
think of all the beauty that you left behind

don't wanna another war song  
like the mountains and the seas  
don't wanna another war song  
like the flowers and the trees  
don't wanna another war song  
no more joy for girls and boys  
don't wanna another war song  
no more playing with the toys  
don't wanna another war song  
can you understand what's going on  
don't wanna another war song  
can you tell me what's too wrong  
don't wanna another war song  
can you see that it's wrong  
don't wanna another war song  
tell me will this pain go on  
don't wanna another war song  
I don't wanna hear another song  
don't wanna another war song  
It's been goin'on too long.
