

## Hit The Freeway - 1/2

Interprété par Toni Braxton.

And we don't stop, no ma  
What's the problem?  
Always complain  
When this chick's starving  
What type of game is this?  
I used to support ya'  
I thought ya'd appreciate  
Somebody thinks that I bought ya'  
Shoes from Milan, Louis Vuitton  
Animals off back  
And jewels in your arm  
Mamie, there's nothing in me  
Moves with the dawn  
Loon a big fish  
Who them fools in the park

Just when I made up my mind, I don't put you out, oh now  
You had your chance, you owned me, what makes you wanna call now  
Can you try to tell me what made you choose her as your friend?  
(I told you it was a friend baby)  
Just when I think you've given up, it's you again  
All I can say, I

(Chorus)  
Farewell, my lonely one  
Nothing else you can't deny (So hit the freeway)  
I don't ever wanna see you again  
You didn't do me right, so  
So long, goodbye, goodnight (So hit the freeway)  
Maybe in some other life  
I will see you again

I worry about the Dow Jones, if then compared to our fun, yeah  
Imagine how crushed she was if you said I was not the one  
(I didn't mean it girl, sorry about that)  
My friends say I was in denial, defending you as a perfect friend  
No new rules must have risen up, it's you again  
All I can say

Repeat Chorus

But now that you left me  
Crazy you upset me  
You know you could have kept me  
But baby, you didn't get me on  
To finally discover  
Explore, uncover

## Hit The Freeway - 2/2

The world as we know it  
But you had to go and blow it

Damn, it's been so long since I heard your voice last summer  
To be honest, it made me smile when I seen your number  
(Hey baby, you know I miss you, ha ha)  
Baby, tell me what I should be instead of being your friend (You know)  
And maybe someday in your dreams my love  
You could say, "Damn, it's you again!"  
Now all I can say, I

Repeat chorus
