Girl we waited long enough, short dress is dangerous
Personality major plus, come back it up

When I think about you and me, red hot probably
Hey baby won't you set me free, can't get enough

When you walked into my life, we were in a club that night
Never seen somebody looking so tight
When I'm all alone with you, I know just what I wanna do
I never been with anybody so right

This is for my riders who like to get on down
This is for my girls cause you know I get on down
This is for my people can you holla back
Tell me where the party at

This is for my riders who like to get on down
This is for my girls cause you know I get on down
This is for my people can you holla back
Tell me where the party at

Girl it's not a sacrifice, one look hypnotized.
Get a six when I roll the dice, Come back it up

I been around the block before, one time, maybe more
My player days are gone for sure, I've had enough

When you walked into my life, we were in a club that night
Never seen somebody looking so tight
When I'm all alone with you, I know just what I wanna do
I've never been with anybody so right. So damn right.

Tell me where the party at

Is it over here?
Is it over there?
Is it over here?
Is it over there?

If you wanna ride – ride it with me.
If you wanna slide – slide it with me.
If you want it hot – it's hotter with me.
And if you want it hard – we're hard as can be.
