

As If - 1/3

Interprété par Blaque.

Uh, uh, uh, uh, uh

Yo, yo

Let me explain this to you

See I'm not gonna let you run me

How we're gonna do it is

I'm gonna run you

You, you've got a lot of nerve

I guess you haven't heard

I'm doin' fine out here on my own

You, you think that you can come

Around here for some fun

But boy you've got a lot to learn

Don't shake your head from side to side

Saying that you've changed enough

That you see the light

Cuz you just say what you say

And want your way

And it's that game that you play

It's a little late

As if

I'm ever gonna take you back

As if

It's ever gonna come to that

So see you 'round, wave goodbye

Be a bird pass me by

As if

I'm gonna let you break my heart again

As if I'm gonna let your love back in my life

Not tonight, get a grip

Baby as if

Come on, come on

Uh-huh, uh-huh, yeah

You seem to think that I

Ain't got no sense of pride

Well boy you got a weird perception now

Of what it is to love

And I am sure because

You got the look of desperation

Don't shake your head from left to right

Saying that you will when you won't ever see the light

As If - 2/3

And you just say what you say and want your way
And it's that game that you play
It's a little late

As if
I'm ever gonna take you back
As if
It's ever gonna come to that
So see you 'round, wave goodbye
Be a bird pass me by
As if
I'm gonna let you break my heart again
As if I'm gonna let your love back in my life
Not tonight, catch my drift
Baby as if

You gotta go, you gotta go bye bye
As if

I, I got places to go
With people you don't know
We're gonna dance all nice and slow

Don't shake your head from left to right
Saying that you've changed and now you're on my side
Cause you know you just want some lucky charm
And it's that game that you play
So I'm moving on

As if
I'm ever gonna take you back
As if
It's ever gonna come to that
So be a dear, disappear
Maybe I'm not being clear
As if
I'm gonna let you break my heart again
As if I'm gonna let your love back in my life
Not tonight, get a grip
Baby as if

No, no, no
As If
I'm gonna let you break my heart again
As if
I'm ever gonna take you back
As if
It's ever gonna come to that
So see you 'round, wave goodbye

As If - 3/3

Be a bird pass me by
As if
I'm gonna let you break my heart again
As if I'm gonna let your love back in my life
Not tonight, get a grip
Baby as if

I'm gonna let you break my heart again
As if I'm gonna let you try and be my friend
It's the end, take the hint
Baby as if
