

This Time - 1/1

Interprété par Dream Street.

Ooh ooh ooh ooh.....

I never thought that I could miss
The touch of your hand, or just one kiss
I never meant to say it's over

Girl, I was a fool to hurt you so
I had it all and didn't know
But I still believe we can be in love again

This time I'm gonna find a way
To hold on to the love that I thought we'd lost forever
This time I'll find the words to say
To make it better
Let's stay together this time

I kept my emotions locked inside
Only to watch love pass me by
But I've had time to think it over
My lonely heart has seen the light
So give me the chance to make it right
And I pray I'll see the day when you return

This time I'm gonna find a way
To hold on to the love that I thought we'd lost forever
This time I'll find the words to say
To make it better
Let's stay together this time

Please don't say goodbye (Hurting deep inside)
We can keep our dream alive if we try (Baby, this time)
Oh baby this time

This time I'm gonna find a way
To hold on to the love that I thought we'd lost forever
This time I'll find the words to say
To make it better
Let's stay together this time
This time I'm gonna find a way (I'm holding on, holding on.....Yeah...)
To hold on to the love that I thought we'd lost forever
This time I'll find the words to say (Ooh ooh ooh.....)
To make it better
Let's stay together this time
