

I Could Stay Here Forever - 1/1

Interprété par Frank Black.

See the scheming behemoth
Licking salt in their cave
Being together is their zenith
It's how they behave

Now we're hanging in tandem
Six trillion miles a year
How can direction be random
When you are so near

I could stay here forever
I could stay here forever
And I'm never bored with this all aboard
I could stay here forever

We've got some bills to pay
And when we pay them off
Maybe we'll get away
But if not, so what?

I could stay here forever
I could stay here forever
