

## Fazer Eyes - 1/1

**Interprété par Frank Black.**

Staring on into night  
Complete synapse  
I switched on something I did not see  
May I leave?  
I believe I might  
This sweet collapse  
Baby, I cannot get me free

When you've got your fazer eyes on me

Driving on into where I do not know  
Shores that once were by the sea  
I'm seeing something that is not there  
It's so fast it's slow  
And it's playing with my memory

And you've got your fazer eyes on me

Accustomed to the frequency of glow, oh yeah  
You won't be frightened of the real thing after the show
