

Headache - 1/1

Interprété par Frank Black.

This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(Got me down)
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows how to pound

I was counting the rings
And I fell me into a sleep
I peeked to see if you were leaving way back when
I was counting the trees
until a day when there was one
I'd hoped beneath, asleep is where that you had been

This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(Got me down)
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows how to pound

Well, I' found you
Maybe you can help me
And I can help you

This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(Got me down)
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows how to pound
