COME AGAIN

You push yourself on me
Force yourself on me
Free yourself through me
You better save yourself from me
Everytime you want me to be
Something I could never be
you will have to wait and see
Till the next time that you have to come again
I hate myself for you I break myself for you
I'd kill myself for you
I'd better save myself from you
Every time you want me to be
Something you could never be
Guess you'll have to wait and see
Till the next time that you have to come again
If you have to walk my way
Have something to say
Get the fuck away
Can't take one more day
I Cannot conform
