

Hush Now - 1/3

Interprété par Holly Valance.

Boy we've been talking
'Bout this and that
I like it fine but
I love the strife
Here's my suggestion
Don't need no words
Get on your feet and if you see
Breathe deep and follow me

I wanna see you working what you got 'Cos that's how I like it That's how I wanna last it on and on Are you ready or not?

Touch down

Zip it

Don't stop moving your body on the dancefloor

Flip it

Rock that so phat

You're shaking on the dancefloor

Now dip it

Feel your base bass

You move across the dancefloor

Zip it

'Cos that ain't what you came here for

Oh oh

Oh oh

So no talk but baby

Don't take offense

'Cos we're on the same vibe

Boy when we dance

Your body language

No need for words

You'll do me good

And it's understood

I feel your need

I wanna see you working what you got 'Cos that's how I like it That's how I wanna last it on and on Are you ready or not?

Touch down

Zip it

Don't stop moving your body on the dancefloor
