Interprété par XZIBIT.

[X] C'mon

[E] Xzibit!

[X] Yeah..

[E] Ahh, ahh, E-Dub

[Xzibit]

It's that millenium ridiculous flow, I never let go
Niggaz gettin knocked out is part of my show
Let 'em know who they fuckin with yo, a rhyme wrangler
Tri-angular push-up the hillside strangler
Dangle a, nigga by the ankle off the balcony
Now let his punk ass go, look out below (BELOWWWW)
It's a tale of two cities, come out when the sun go down
We officially not fuckin around
Stuck in the ground, fitted with a suit in a pine box
(hah!) with my fresh pressed khakis in a slingshot
So heatbox all day in a nigga face
and all you bitches see the dick that you shoulda ate

[Chorus 2X: Xzibit : Two fly motherfuckers] You can't fuck widdit
Backed by +Open Bar+, so y'all forget it

[Chorus]

[J-Ro]

J-McEnroe, cam smashin, party crashin
I eat MC's like a ration
I'm sockin niggaz in they goatees
I leave you stiffer than that fool on my basketball trophies
I'm in the room with 10 G's, countin ten G's
cause we need a bag of weed (can you smell it?)
Now we need ten dimes, to blow on deez like wind chimes
Time to close the blinds cause you all in mines
I bought a bottle for the session, and did not share it
Drink so much Captain Mo' all I need is a parrot
You took the Alkaholik challenge, and lost your balance
You underground, we under water drinkin liquid by the gallons

[Tash]

Slurred words, double vision, brain bustin, head rushin
Since I'm too drunk to walk, I rock a party on crutches
and still rush the roughest MC who wanna get it
Forget it, it's Likwit, Tha Liks and, Xzibit
Ca-Tash on the blast the final piece to the puzzle
I slap bitches on the ass I slap tits up out the muzzle
I shuffle with the microphone, bang rhymes consistant
You wack and I'm Ca-Tash and that's the motherfuckin difference

Alkaholik - 2/2

For instance, "21 and Over" set your clocks back
(Tick tock tick tock) Still standin where the rocks at
Two-thousand-one, we still young guns that's +Restless+
(Thirty niggaz, sixty hoes) and that's the motherfuckin guestlist!

[Chorus]
