

## Still On My Brain - 1/1

**Interprété par Justin Timberlake.**

The beautiful days are long gone  
I can't seem to breathe  
Feels like it  
hasn't been that long  
since you walked away from me  
Now I can try to act real strong  
But you and I both know I still think of you that way  
You should know (that)

The beautiful lights, the star filled nights, they don't mean a thing  
Cuz you were my star so it don't seem right without you here with me  
now I can try  
To act real strong  
But you and I both know it's hard for me to say you were my soul

Now I could say that I don't love you no more  
And I could say that I've closed the door for our love  
And I could tell you that I feel it's time for us to go our separate ways  
but Baby I just wouldn't be the same  
cuz girl your love is still on my brain

Now when you're in love it takes time to heal  
When someone's broken your heart it changes how you feel  
Girl I  
Thought that you'd never do me that way  
But even after all that I still think of you that way

Now I could say that I don't love you no more (I could say this, I could say that)  
I could say that I've closed the door for our love  
And I could tell you I feel it's time for us to go our separate ways  
But Baby I just wouldn't be the same, cuz girl your love is still on my brain

Now love is a game that we both like to play  
when I win or lose if I go or if I stay  
Even though I tried to hide my broken hearted sigh  
Girl you know me inside out  
and I can't get you off my mind

Now I could say that I don't love you no more  
I could say that I've closed the door on our love  
I could tell you that I feel it's time for us to go our separate ways  
Baby I just wouldn't be the same, girl your love is still on my brain

(la la la la la... )
