

How Do I Deal? - 1/2

Interprété par Jennifer Love Hewitt.

Every day I wake up to another day gone by
Nothing but the open road and the never-ending why
Anything can happen, yeah, but nothin ever does
I try to change, it's kinda strange, the same as it ever was, but look at us

How do I deal with you
How do I deal with me
When I don't even know myself
Or what it is you want from me
How do I deal with us
How do I know what's real
When I don't even trust myself
Or what it is I feel
And how do I deal

Every night, in the dark, I lie awake in bed
How am I supposed to dream, with all the static in my head
I turn in all directions and I pray for some relief
What can I do but feel the weight I'm underneath
And grit my teeth

How do I deal with you
How do I deal with me
When I don't even know myself
Or what it is you want from me
How do I deal with love
(Why do I) Why do I have to choose
And everybody's tellin me
What the hell I have to do
And how do I deal with us
How do I know what's real (Real)
When I don't even trust myself
Or what it is I feel
Now how do I deal

How do I deal with you (How do I deal with you)
How do I deal with me
When I don't even know myself
Or what it is you want from me
How do I deal with love (How do I deal)
Why do I have to choose
When everybody's tellin me
What the hell I have to do
How do I deal with you (How do I deal with you)
How do I deal with me (How do I deal with me)
When I don't even know myself
Or what it is you want from me
