

## That's the reason - 1/1

**Interprété par No Angels.**

I'm going through good and bad times  
working hard to live my dreams and I  
Don't know if it is the right way  
I changed my life in so many ways. But

Sometimes - I wonder  
If I had - made it without...

The way you love me and support me  
Makes me know we'll never part  
The way you touch me deep in my soul  
That's the reason you're in my Heart...  
The way you need me like I need you  
I'm sure We'll never part  
The way you feel me and make me smile  
That's the reason you're in my Heart...

In moments of fear and darkness You covered me with light  
And hope. And you  
Have to let me know. If there is  
Something I can do for you. Yes

Sometimes - I wonder  
If I had - made it without...

The way you love me and support me  
Makes me know we'll never part  
The way you touch me deep in my soul  
That's the reason you're in my Heart...  
The way you need me like I need you  
I'm sure We'll never part  
The way you feel me and make me smile  
That's the reason you're in my Heart...
