

## When the angels sing - 1/1

**Interprété par No Angels.**

And when the angels sing,  
I want you by my side,  
I don't care how long I've been waiting for my baby  
And when the angels bring, you back here in my life...  
Then I know it's true. that I love you...

I was so blind , I was so wrong,  
The day we met it never leaves my mind.  
I thought u played some foolish game,  
but now my heart tells me I was wrong  
And when you come around I'll let you inside  
cause I'm ready I cant wait anymore.....

And when the angels sing,  
I want you by my side,  
I don't care how long I've been waiting for my baby  
And when the angels bring, you back here in my life...  
Then I know it's true. that I love you...

Each night I pray, that you'll come back,  
I can't deny what I feel inside of me:  
The Music plays one special song the words that they say,  
I hope can bring you home.  
And when you come arround I'll let you inside  
cause I'm ready I cant wait anymore.....

And when the angels sing,  
I want you by my side,  
I don't care how long I've been waiting for my baby  
And when the angels bring, you back here in my life...  
Then I know it's true. that I love you...

I know I've cried so many times...  
I know I said things I was running away  
I was wrong.....

And when the angels sing,  
I want you by my side,  
I don't care how long I've been waiting for my baby  
And when the angels bring, you back here in my life...  
Then I know it's true. that I love you...
